Re: The ECO Show

Dear Mr. Maverick:

I wanted to express my personal thanks for your performance(s) at Huggins Elementary last Friday. I have been volunteering at Huggins for over three years and have a good perception of what "works" with the students. And, your show worked!

I was with my Brownie troop the following day on a field trip. (All members of my troop saw your show.) The park was offering balloons at the front gate. Some children were blowing them up then stomping on the balloon to pop it leaving behind the rubber debris. Several of my girls began to "fuss" at the other children for littering and picked up the trash! I was so proud.

I have spoken with several teachers and the school's principal. I heard nothing but praise for you and your show. I think you can plan on a return visits to our school for years to come. Also, I am looking into having you here to perform at a *Fulshear Friday Night* event which the City hosts several times a year.

Thank you again for writing and performing a show that teaches our children values while entertaining them! It is a lesson worth giving and receiving!

Sincerely,

Becky S. Daves
